Fashion, Apparel & Interior Design (FAID)

Design Essentials HE 835P .5 Credit All Grades

Design Essentials is HIGHLY RECOMMENDED as the first course to introduce students to and expand upon the various aspects of the design industry. Concepts covered will include elements and principles of design, textiles, and production processes as well as provide a discussion and exploration of career opportunities.

Interior Design I HE 840P .5 Credit All Grades

Interior Design I is a course that will focus on the design industry with an emphasis on interior design concepts. Topics will include design history, accessories, application of design elements and principles, and drafting skills. Projects are integrated throughout the course to provide authentic applications in design basics, color, lighting, furniture styles and design.

Design Trends I HE 845P .5 Credit All Grades

Design Trends I will provide students an opportunity to explore and create floor plans, fashion sketches, and learn how to professionally present student work. Techniques may include portfolios, display boards, and a variety of other presentation styles.

Design Trends II HE 850P .5 Credit Grades 10-11-12

Design Trends II will provide students an opportunity to explore future trends in design and their effectiveness within a professional presentation while utilizing a variety of technology. Techniques may include the use of computer software programs, portfolios, display boards, and fashion show production.

Interior Design II HE 855P .5 Credit Grades 10-11-12

Prerequisite: *Interior Design I.* Interior Design II will prepare students for careers and/or post-secondary programs related to housing and the commercial design industry. Students will have the opportunity to explore and experience career options and create projects that focus on meeting a client's needs and professional presentations.

Apparel Production I HE 858P .5 Credit All Grades

Apparel Production I course will provide students with the knowledge and skills to construct, alter, and repair clothing and textile products. Course topics typically include taking measurements, creating and preparing patterns, and various sewing techniques.

Apparel Production II HE 859P .5 Credit Grades 10-11-12

Prerequisite: *Apparel Production I.* Apparel Production II course will expand upon the various aspects of garment construction and the textile industry, conveying the commercial application of design principles, production processes, and maintenance techniques. This course can be repeated with instructor permission.

Design Studio I/II HE 865P/HE 866P 2 Credit Grades 12

Prerequisite: *1 full credit completed within the Fashion, Apparel, and Interior Design Program.* Design Studio is for the student who has an interest in the design industry. Areas of interest will offer an extended learning opportunity for students to apply communication, leadership, employability, cooperative learning, business etiquette, and professional presentation skills. Students will create a variety of studio projects, individually and in teams, to solve real-world, design industry problems. Credit may vary according to student and building needs.
